

Dexxo Smart io

Opt for
**concentrated
efficiency**

for your motorised garage door!

Dexxo Smart io motorises garage doors for individual homes:

-  Up to 10 m², with or without wicket door.

Everyday life made easier

- Fast opening.
- Automatic closure mode.
- Partial opening for pedestrians to pass through.
- Integrated Leds lighting area during garage door operation.
- Optional extra light control, from remote control and synchronised with garage door operation.

Peace of mind assured

- Automatic obstacle detection.
- Mechanical lock (optional).
- Secured unlocking with personal key for manual operation when needed.
- Backup battery in case of mains power failure (optional).

Quality tried and tested

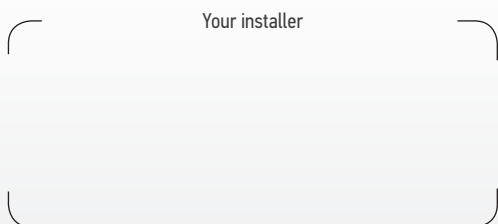

- Soft stop and soft start, to preserve the garage door and installation's life.
- Door limits controlled with accuracy of integrated encoder.
- Complies with european safety standards (EN 60 335-2-103).
- Tested on 36,500 openings and closings.

Choose the control method that suits you!

CONNEXOON ACCESS
The app dedicated to access products.

TAHOMA
The app for the entire house.

SOMFY +
Connect your garage door!

"With geolocation, when I get home, the gate and the garage door open automatically, and the outside lights switch on" Welcome!

"No matter where I am, at any time I can glance on my phone and check that my house is closed and secured." Peace of mind!

"My daughter has forgotten her keys? Remotely, from my smartphone, I open the garage door for her to get in." Everyday simplicity!
