

Elixo Smart io

For gates

EASY CONNECT!

The new standard for your connected entrances

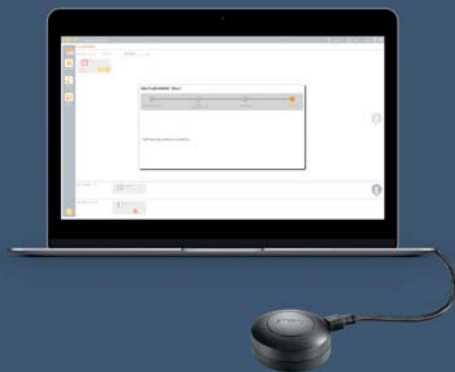

Smart io is a 100% connected, super-efficient system for motorised control of all your standard garage doors or gates.

- Essential functions for an optimal, competitive product
- Integrated electronics for just 3 steps to set up: cable, settings and accessories.
- Programming, diagnostics and maintenance made easy with the Set & Go and SERV-E-GO connected tools.
- A unique experience for your customers, in terms of smooth, comfortable, secure control of the access to their home.

Choice of connected control

- **Connexoon Access**
The app for controlling access only.
- **TaHoma**
The app for managing all the equipment in the home.

Easy Prog!

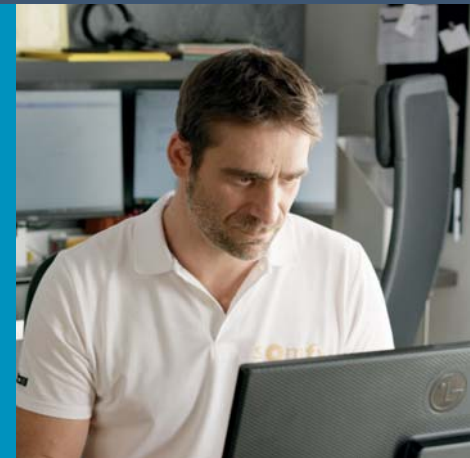

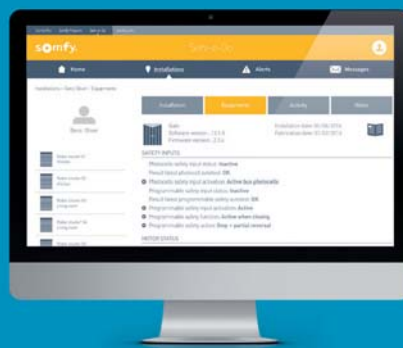

Set & Go io, your programming tool on the job:

- Intuitive, step-through approach, no need for a manual.
- Successful programming every time, no chance of a mistake.
- Wireless, nothing to connect to the motor.

Easy Diagnostic!

SERV-E-GO, your remote maintenance and diagnostics interface. Without moving from your office, you can keep control of all your connected systems:

- Identification of systems.
- Accurate diagnosis.
- Reconfiguring the settings.
- Customised, automatic notifications for problems.

Easy install!

1 CABLE error-free wiring

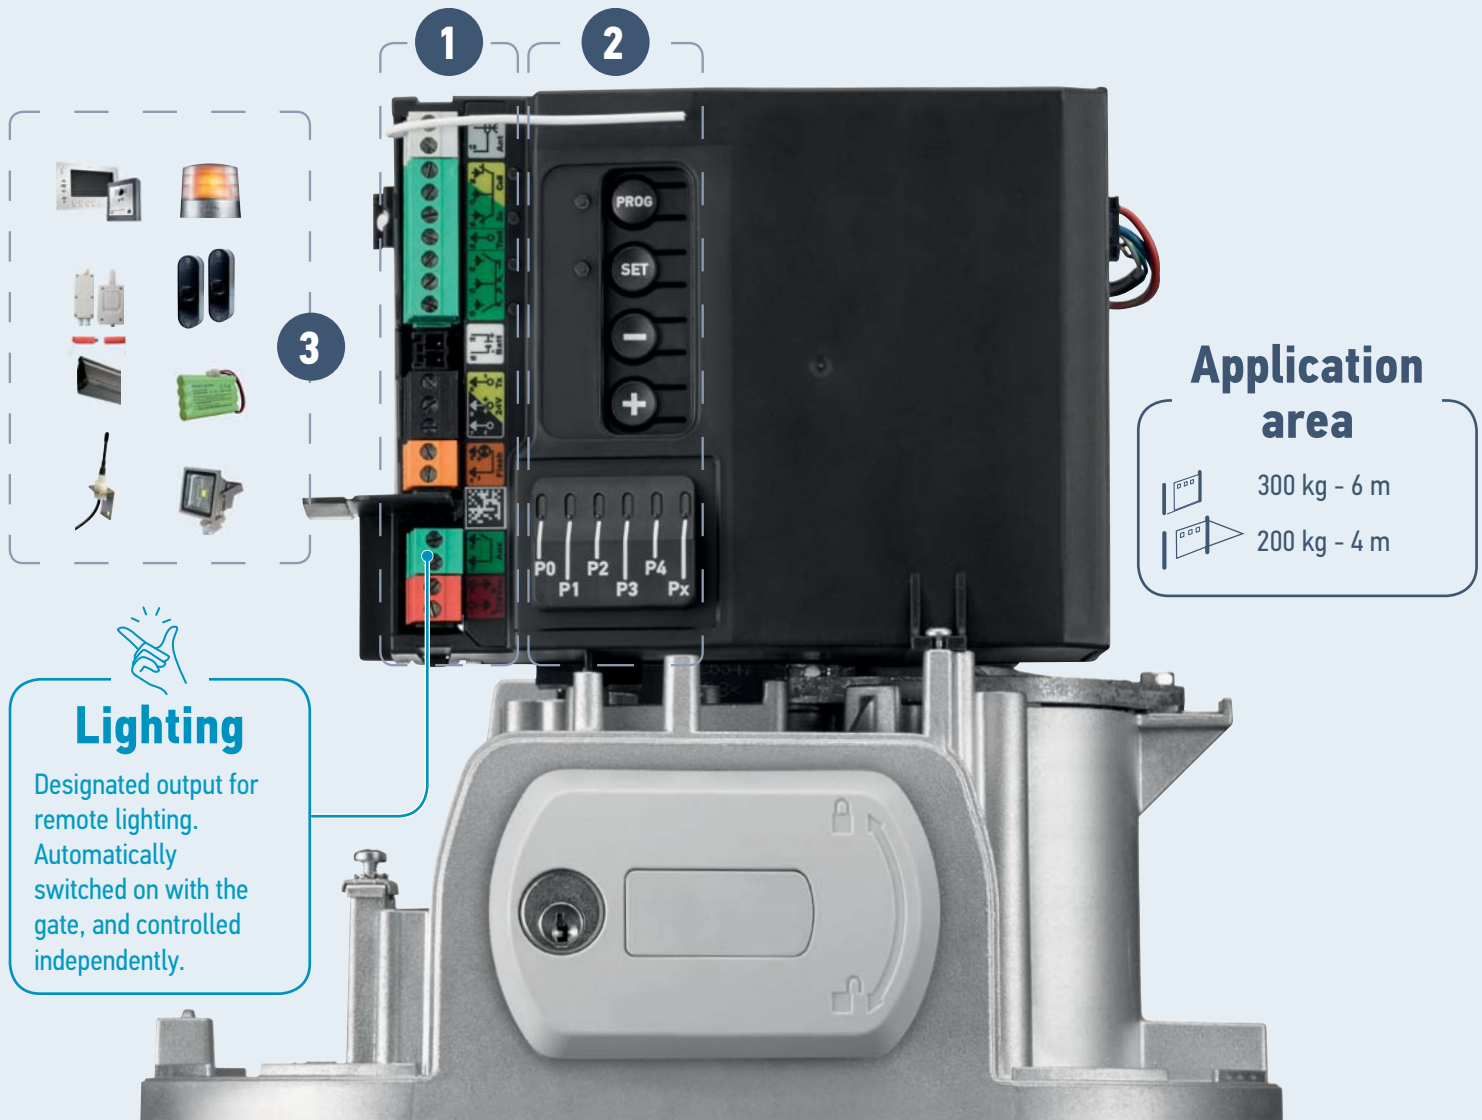

- Plug-in, independent terminal blocks, clearly identified.
- 230V and 24V zones clearly separate.
- Entry status indicator lights.

2 SETTINGS less than 90 secs

- 4 function buttons for programming:
1 button = 1 function.
- 6 essential parameters: operating mode, speed, slowing zone, obstacle detection sensitivity, type of cell, self-test for safety edge.

3 ACCESSORISE for enhanced comfort and protection

- Comfort: wire command inputs, battery, lighting, video door phone, etc.
- Security: cells, orange light, safety edge.

Elixo Smart io

For you professionals, everything you expect...

Elixo Smart io

For your customers, everything they love...

Comfort and complete security

With Somfy's connected solutions your customers can control their gate and many other devices in the home from a mobile phone, at any time...

"The geo-location facility means that when I get home, the gate and the garage door open automatically, and the outside lights come on"

Welcome!

"When I leave home, I close and secure my house in just one click"

Security!

Everyday life made easier

Automatic closure, pedestrian opening, synchronised outside lights... it's life-changing. And with all the other possibilities of the connected life, it just gets better.

Aesthetics

And Elixo Smart io is 100% compatible with a rack cover, to preserve the appearance of your home.

Peace of mind assured

Automatic obstacle detection, a back-up battery in case of power failure, secure manual unlocking with a personal key, it all gives peace of mind for the whole family... Even more peace of mind? The Check function in the connected mode.

Somfy reliability

- Gentle starting and stopping, to extend the life of the carrier product.
- Tested for 36,500 openings and closings.
